SUMMARY

Computer Engineering graduate with about one year of hands-on experience building mobile applications and backend services. Independently designed, developed, deployed, and published Eqraa, a school management platform, using Flutter, ASP.NET Core, and PostgreSQL. Experienced in production deployment on Linux with Docker, backed by professional experience administering servers and IT infrastructure.

WORK EXPERIENCE

Information Technology Specialist · Ta3leem, Baghdad, Iraq **Sep 2025 – Present**

Joined as IT Helpdesk Officer (Sep 2025 – Apr 2026); promoted to IT Specialist in April 2026.

- Administer and maintain Linux servers, Docker-based services, and production IT infrastructure.
- Manage Proxmox virtual machines, backup systems, and storage; work with networking and access management.
- Support and troubleshoot production systems and the organization's e-learning environment; as Helpdesk Officer, resolved operating system and network issues for staff.

Technical Support Engineer · EarthLink Telecommunications, Baghdad, Iraq **Dec 2023 – Jan 2025**

- Diagnosed connectivity and network issues on MikroTik and Mimosa equipment, using internal monitoring and ERP systems for troubleshooting and incident tracking.

PERSONAL PROJECT

Eqraa · School Management Mobile App

- Built independently end to end: **Flutter/Dart** (BLoC) mobile app, **ASP.NET Core** (C#) REST API, and **PostgreSQL** database, with Firebase push notifications.
- Deployed on a Hetzner VPS using Docker, Caddy, Cloudflare, and Hetzner Object Storage; published on the App Store, Google Play, and Huawei AppGallery.

EDUCATION

Bachelor of Computer Engineering · Al-Mansour University College, Baghdad, Iraq **2019 – 2023**

Graduation project: Financial Management Mobile Application developed using Flutter.

CERTIFICATIONS

- MTCNA — MikroTik Certified Network Associate (2023)
- Cisco IT Essentials: PC Hardware and Software (2023)
- IBM SkillsBuild — AI Fundamentals (2023)
- Cisco Networking Essentials (2023)
- Cisco Introduction to IoT (2023)

ADDITIONAL INFORMATION

- **Technical Skills:**

Mobile	Flutter, Dart, BLoC state management, cross-platform development, Firebase Cloud Messaging (FCM)
Backend	C#, ASP.NET Core, REST APIs
Database	PostgreSQL, relational database development and integration
Cloud & DevOps	Docker, Linux, Hetzner Cloud VPS, Hetzner Object Storage, Caddy reverse proxy, Cloudflare, Git, GitHub
App Distribution	Apple Developer Program / App Store Connect, Google Play Console, Huawei AppGallery Connect

- **Languages:** Arabic (Native), English (Good)
